European Commission

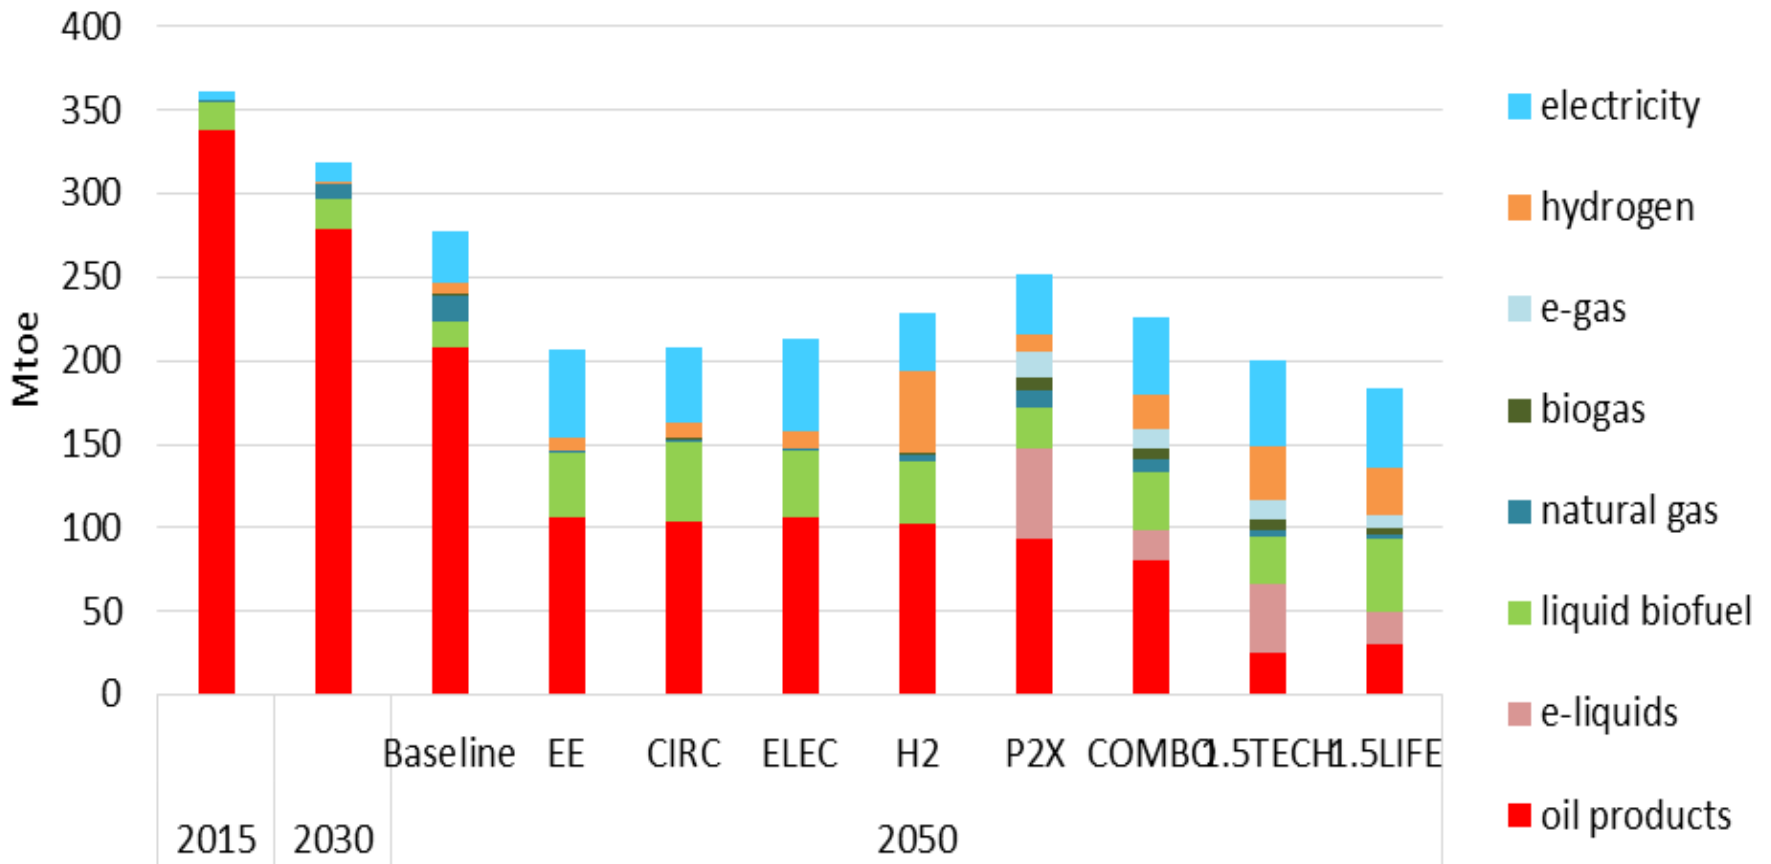

# Development of GHG emissions in transport

Greenhouse gas emission in the EU  
in percentage change since 1990:

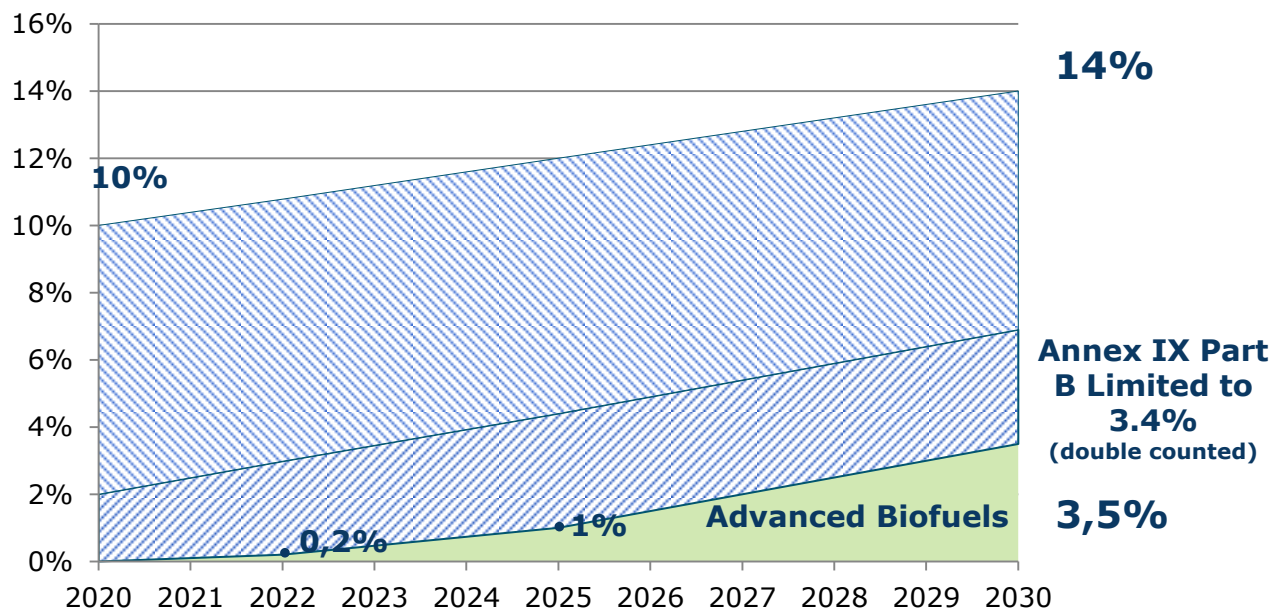

**Road transport =  
22% of total EU  
emissions**

# Transport sector

# TARGETED POLICY ON PROMOTING RENEWABLES IN TRANSPORT

## Multipliers

- **Obligation of fuel suppliers achieving 14% target**
- **Indicative trajectory**
- **Scope: biofuels, res electricity, RFNBOs, recycled carbon fuels**
- **Contribution of conventional biofuels optional and limited.**

**Ursula von der Leyen** ✓

Følg

Europe should be the first climate neutral continent in the world.

**"ALL OF US** AND EVERY SECTOR WILL HAVE TO CONTRIBUTE TO **REDUCE EMISSIONS,** FROM AVIATION TO MARITIME TRANSPORT TO THE WAY EACH AND EVERYONE OF US TRAVELS AND LIVES. **EMISSIONS MUST HAVE A PRICE** THAT CHANGES OUR BEHAVIOUR."
